Household Organization Reminder

Authors: Joy Jaroscak, Payton Maddox, Grace Wohlwinder, and Elizabeth Poteat

Problem Statement:

Our users struggle with household organization and cleanliness due to a lack of remembering to complete the needed chores. Our solution should provide users with reminders of when to start and complete their chores.

Who is experiencing the problem?

Individuals in charge of cleanliness in their place of residence.

What is the problem?

Lack of structure in cleaning and organization in the household.

Where does the problem present itself?

The users' place of residence.

Why does it matter?

People need an easy and helpful way to add structure and organization within their household, so they can complete their tasks in an efficient way.
